WISP

The New Look of collaborative spaces

ROUILLARD

WISP

The WISP panel collection is now available in three different widths (24", 36", and 48") and two different heights (56" and 66") for more versatility. As part of Rouillard's smart design, all panels are light enough to be moved around easily. The built-in magnetic system that allows for easy set-up is a convenient optional feature.

Divide with style

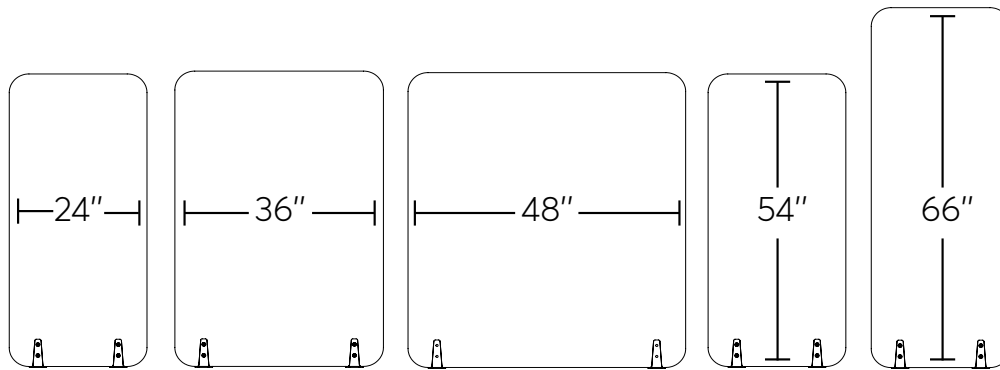

Customize your Wisp wall by adding side shelves or work surfaces. Choose from our vast assortment of fabrics and create your favorite upholstery style (one or two-tones). However you use it, Wisp will blend seamlessly with your collaborative space while remaining compliant with social distancing measures.
