

Waste Cabinets

Overview

To protect the environment and reduce office clutter, we are now offering Waste and Recycling units that will keep your garbage and recycling bins neatly tucked away in a modern, clean-lined designed cabinet. BRC's Waste and Recycling units can be built into low credenzas, serving credenzas, or constructed as a standalone unit for a centralized location in your office.

Dispose of your recycling or garbage through a closed-door unit with a slot to pass paper through or a circular countertop opening with a stainless steel ring. Add a lock to the door for the security of confidential documents to be shredded. All units come with a bin in black or blue. BRC also offers a PPE station that can be installed nearby to sanitize your hands and keep staff healthy.

Waste Cabinets

Specifications

Features

- BRC manufactures recycle cabinets to suite any ancillary space or conference room.
- Available in different styles and sizes to fit any requirement.
- Available in all standard BRC finishes, with an upcharge for any custom finish.
- All exposed edges are manufactured with thermo rigid laser applied 3/32" (2mm) thick edging.
- Units have one inch of leveling
- BRC products meet ANSI/BIFMA e3 Furniture Sustainability Standards, BRC is Level@ 2 Certified
- Locks and decals are not standard on recycle units.
- On some models, drawer pulls on Recycle units are oriented together at top across all doors for consistency.
- Grain direction is horizontal on tops and shelves while vertical for gables and drawer fronts.
- Standard casework construction is 3/4" thick low-pressure laminate (LPL).
- All low-pressure laminate panels are 45lbs density and finished both sides.
- Most BRC low-pressure laminate finishes can be matched to high-pressure laminate (HPL).
- Tops are available with three core/surface material options of 3/4" (19.4mm) and 1" (25.8mm) LPL or 1-1/8" (27mm) HPL.
- Pull out and open top units include removable black or blue plastic Rubbermaid bin
- Open configurations include top ring. Ring is 8" and stainless steel.
- Most parts are manufactured in a way that allows for replacement in the field.
- Storage units are shipped fully assembled.
- Storage products must be secured to an additional support structure (ie. wall or adjacent cabinet).
