TAKE OFF

**GENERAL INFORMATION**

**Description**

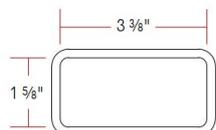

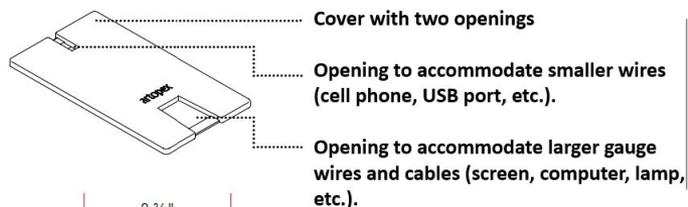

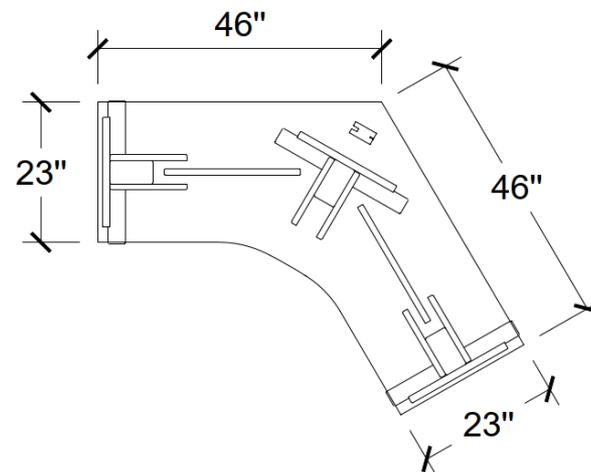

- 120° height-adjustable table
- T-brackets (3)
- Cable management in the center
- 23 x 46 x 24 ½/50

**Finish**

- Surface : 1" thick laminate
- Base : Painted Metal (White, Silver or Black)
- 1.5 mm thick ABS edge banding

**PLAN VIEW**

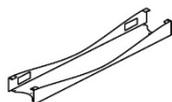

**Dimensions of interior space with cover removed**

TECHNICAL INFORMATION

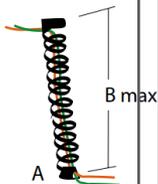

- Electrical activation system
  - Power cord with conventional wall plug.
  - 2 legs : 70" without grounding
  - 3 legs : 118" WITH GROUNDING
- 
- Adjustment Range
  - 3 sections 23 to 48.7" H.
- 
- Load capacity (including surface weight).
  - 2 legs: 320 lbs
  - 3 legs : 400 LBS
  - Automatic motion blocking/ collision detector
- 
- Numerical display keypad with 3 custom heights.
  - The keyboard is installed on the front under the surface, on the left or RIGHT

- Metal conduit to manage subsurface wiring
  - Silver finish (other color available with surcharge)
  - Dimensions : 4-1/4H x 3-3/4L x variable length

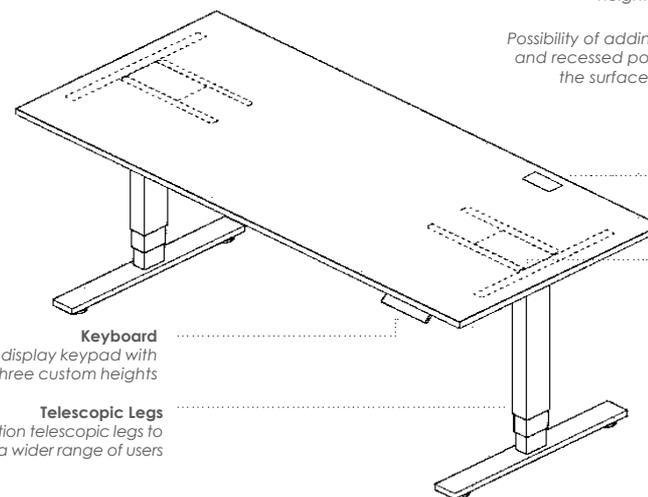

- Expandable wiring conduit included
  - 3-1/2" diameter conduit and 6" base.
  - Black plastic finish
  - Stretches up to 84H

**Motors**  
Two or three silently activated motors integrated into the legs for quick height adjustment.

**Power Strips**  
Possibility of adding grommets and recessed power strips on the surface of the table

**Keyboard**  
Numerical display keypad with three custom heights

**Telescopic Legs**  
Three-section telescopic legs to accommodate a wider range of users

FENIX® H.P.L. use nanotechnology for a distinctive tactile experience. Ultra-soft and light-absorbing, this finish is also scratch resistant. Marks disappear on their own through thermal regeneration. The smooth surface of FENIX® H.P.L. is easily cleaned and disinfected. Hypermat Enamel colors match the FENIX® H.P.L. colors but retain the properties of standard Artopex enamel finishes.

Les finis stratifiés FENIX® utilisent la nanotechnologie afin d'offrir une expérience unique au toucher. Ultra-doux et absorbant la lumière, ce fini résiste également aux égratignures. Les rayures disparaissent d'elles-mêmes grâce à une régénération thermique. Avec leur surface lisse, les FENIX® peuvent être nettoyés et désinfectés aisément. Les couleurs des finis Émail Hypermat correspondent à celles des stratifiés FENIX®, mais conservent les propriétés des autres finis d'émail Artopex.
